Objectives

Transitioning from the restaurant and hospitality industry into the Information Technology sector, I am ready, willing, and able to learn and adapt to a new industry. I recently completed the Google IT Support Professional Certificate where I learned the skills necessary to effectively troubleshoot problems, manage active directories, use the command line interface, run a secure network for small and large corporations, basic computer architecture, and work with different operating systems.

Skills Summary

Troubleshooting

- Maintained the student lab computers during college as a student aid.
- Maintained and troubleshooted the printers.
- Installed software and driver updates.
- Insured computers were working properly during school hours and before closing.

Customer Service

- Cash handling experience as both a cashier and teller.
- Experience communicating with people from all walks of life.
- Bi-lingual, speaks both English and Yoruba fluently.
