Objectives

I recently completed the Google IT Support Professional Certificate where I learned the skills necessary to effectively troubleshoot problems, manage active directories, use the command line interface, run a secure network for small and large corporations, basic computer architecture, and work with different operating systems.

Skills Summary

Troubleshooting

- Monitored performance and troubleshot printers.
- Installed software and driver updates.

Customer Service

- Cash handling experience as both a cashier and teller.
- Experience communicating with people from all walks of life.

Languages

- Html,
- C.S.S,
- JavaScript.
